

DRYER AIR FOR BULLTERPROOF VESTS

Page | 1 **Personal Protective equipment is used day in day out, intensively, and in greatly varying temperature and weather conditions. The result: wet clothes. To start the next shift in comfortable attire, Pronomar is supplying an ingenious drying system.**

Pronomar's robust systems will dry your PPE the easy way. The clothes are dried from the inside out by means of warm air. The drying is fast and gentle, so that your valuable equipment receives the careful treatment it deserves.

The stainless steel dryers AIR are connected to the warm-air blower FLOW300 and comes with a timer. This ensures an easy handling of the systems, so that by switching on the timers everybody can quickly start the dryers.

Advantages

- + dry and hygienic equipment
- + lifespan PPE extends by 2-3 times
- + improvement for work and leisure
- + drying from inside-out
- + robust, nearly indestructible system
- + space-saving
- + easy-to-operate
- + reduction of bacteria and odours
- + plug and play

Air blower FLOW300

A warm and fast drying of all clothing by using a large amount of air, which flows through the continuous stainless steel framework and rounded hangers. The hangers contain nozzles, through which the air enters. One of the main advantages of drying with slightly warmed up air is that it is particularly gentle on materials such as leather and high-tech fabrics.

*temperature approx. 39 °C
(with 20 °C room temperature)
230 V AC ~ 50/60 Hz, PN ø 1.000 W/h
(1.500 W, 8 A device fuse)
dimensions: W 30 x D 21 x H 21 cm*
